

# The Future of AP<sup>®</sup> Precalculus.

## Launching 2027.

## Precalculus for the AP<sup>®</sup> Course

Our AP<sup>®</sup> Precalculus program offers a seamless bridge to AP<sup>®</sup> Calculus, giving students the tools and confidence they need to succeed in higher-level math. With an emphasis on conceptual rigor, purposeful use of technology, and real-world problem solving, this program ensures students don't just memorize formulas—they truly understand the “why” behind the math. Created by expert authors and a team of experienced AP<sup>®</sup> educators, it equips learners with the skills, strategies, and practice they need to thrive on the AP<sup>®</sup> exam and beyond.

### A rigorous and AP<sup>®</sup>-aligned program to set students up for success in AP<sup>®</sup> Precalculus.

- **100% Alignment to the AP<sup>®</sup> Precalculus CED:** Built from the ground up to fully support the AP<sup>®</sup> Precalculus course with a focus on skills development, real-world problem solving, and AP<sup>®</sup> class and exam preparation.
- **AP<sup>®</sup> pedagogy and support** in step with BFW's Calculus for the AP<sup>®</sup> Course by Sullivan/Miranda, including:
  - Narrative presented in BFW's known and effective student-friendly approach, with AP<sup>®</sup> Tips throughout the margins
  - Examples aligned to AP<sup>®</sup> exercises and problems
  - Section-level AP<sup>®</sup> Practice problems and Chapter-level AP<sup>®</sup> Review Problems
  - Unit-level AP<sup>®</sup> Practice Tests and Full-length AP<sup>®</sup> Practice Exam
  - Unit 4 post-exam content to prepare students for future calculus study

### Digital Tools That Drive Success

- **Achieve** - BFW's Powerful Digital Platform:
  - Video Program to reinforce key concepts
  - AP<sup>®</sup>-level problems with Guided Feedback
- **Teacher's Edition:** Includes planning notes and strategies from top AP<sup>®</sup> educators to support classroom instruction and assessment.
- **Customizable Resources:**
  - BFW Online Test Bank
  - Additional enhanced learning features
  - are under development!

### Expert Authorship & Advisory Team

- **Lead Author: Stephen Kokoska**, former AP<sup>®</sup> Calculus Chief Reader, brings years of AP<sup>®</sup> experience and deep expertise in curriculum design.
- **Collaborative Review Team:** Includes current AP<sup>®</sup> Calculus and Precalculus teachers, AP<sup>®</sup> Precalculus APSI leaders, and former AP<sup>®</sup> Precalculus committee members, ensuring the program is accurate, effective, and grounded in real classroom experiences.
