

Environmental Science for the AP® Course 4th edition

Resource Materials

Annotated Teacher's Edition (print and ebook-available in Achieve, digital platform)

Unit Resources (available in Achieve, digital platform)

- CED correlation
- Environmental Science Extras – a curated guide to additional resources that you may wish to include in your course, when time permits, to enhance your instruction and meet the unique needs of your classroom. These additional resources include informative and engaging videos, online activities, AP® exam practice, and more.
- Animations
- Visual Representation Videos. These videos walk students through each segment of the new Visual Representation 2-page spreads in the Student Edition. The authors identify how the visuals address core concepts from the unit and how each of the topics are interconnected (students have access to these videos as well)
- Labs (teacher and student versions)
- End-of-year activities to do with your class after the exam
- Strive Guide answers
- Professional Developmental videos - one per unit
- Do the Math Videos. These videos present a teacher working step-by-step through an AP® Environmental Science problem using mathematical routines that students are expected to know for the exam. (students have access to these videos as well)
- Web Resources for videos, websites, and other online materials referenced in the unit
- Module Lecture Slide Presentations. These presentations outline key concepts from each module and include relevant images and diagrams from the student textbook for use during in-class lectures.
- Activities and Handouts (teacher and student versions) for activities, problems, and quizzes associated with the wrap-around features
- An additional Free-Response Question, with rubrics, for each unit
- Answers to end-of-module AP® Practice Questions, unit AP® Practice Exams, Cumulative AP® Practice Exam, Practice Your Science Skills assessment, Data Analysis Questions, Critical Thinking Questions, and Science Applied Free-Response Questions

Test bank

- Over 1500 Questions
