

What are Our Instructors Saying About the Reports?

The report was valuable to me as it revealed students' level of interest in the course, what they seek from the course and how they will apply the outcomes of the course to their lives. **I truly used all parts of the information included in the report.**

It provided good insight about where many of the students can use some **additional instruction and resources to boost learning.**

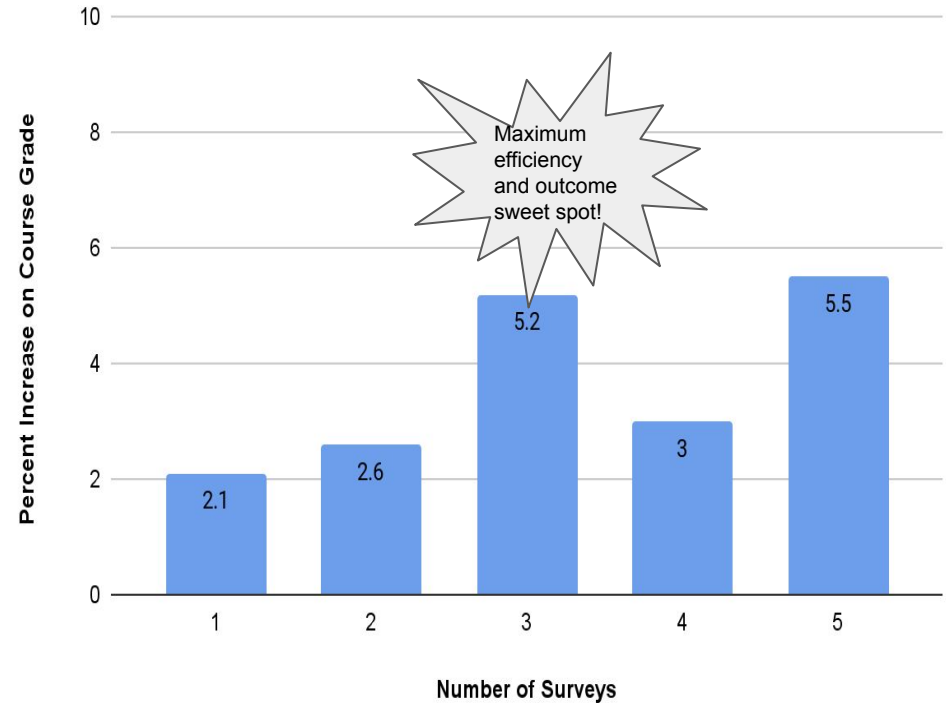

It's interesting and helpful to see the number of students who report being off track. It's also helpful to see what **obstacles they report facing to staying on track and the strategies they intend on using moving forward.**

When asked how they felt about the goal setting and achievement surveys, students said....

- It shows that there is a lot more room for improvement not just in psych, **but also other classes.**
- The questions in the survey helped me to reflect on what I did to better myself and **encouraged me to improve further.**
- The surveys helped me to reevaluate my goals and **ensure I was on the right track** for this class to get the grade I desire.
- The surveys helped me better look at how I studied and participated in class. It gave me **better study habit ideas.**

Does using goal setting and achievement surveys impact student course performance?

- **YES!** Students that complete their surveys experience **higher final course grades**
 - Students completing *up to 2* surveys perform **2 - 3% better on their course grade than their peers not completing surveys.**
 - Students completing *3 - 5* surveys perform **up to 5.5% better on their course grade than their peers not completing surveys.**

Does using goal setting and achievement surveys impact student performance in Achieve and their engagement with Achieve?

- Students that complete their surveys also **perform better on internal Achieve assignments like practice quizzes and homework** (8 - 12% higher than their peers not completing surveys)
- **AND....** Students completing their surveys also complete *up to 36%* more of their assigned Achieve activities
