

Myers Psychology for the AP® Course Resource Materials

Annotated Teacher's Edition (print and ebook available in Achieve digital platform)

Resources (available in Achieve)

- PD Unit Overview Videos by Liz Hammer. These videos offer tips and advice for teaching the unit, address the new CED where relevant, and help you make the most of your resource materials.
- Editable Lecture Slides for each module.
- Activities and Handouts. (teacher and student versions) for student activities, teacher demonstrations, a associated with the wrap-around features
- Psychology Extras. This tool, organized by unit, provides easy access to many additional resources for teaching AP® Psychology to help you enrich your course and save valuable time. Because existing digital resources like blog posts and other useful tools may have unexpected URL changes, we provided this “living” online Google sheet that includes current hyperlinks to these resources and other new ones that may come into being.
- Instructions for in-class teacher demonstrations.
- Sample FRQs with rubrics.
- Answers to end-of-module AP® Practice Questions, unit AP® Practice Questions (multiple choice, Evidence-Based Questions, and Article Analysis Questions), the full Practice AP®-Style Exam, Examine the Concept Questions, Exploring Research Methods & Design Questions, Data Interpretation Questions, and Developing Arguments Questions.
- Answers to all reading guide questions, exercises, and practice questions in Strive for a 5: Preparing for the AP® Psychology Examination.

Test bank

- Over 4,000 Questions, including MC, evidence-based questions, and article analysis questions.
- Each question has been tagged with the module, learning target, and section to which it applies.
- Delivered by email.
