Navigating the extension

After installing the extension, you can modify the appearance of text on any website, including within the Achieve course.

Changing the font text size

- To increase the text size, select **A+** or press the keys "Alt" and "+" simultaneously.
- To decrease the text size, select **A-** or press the keys "Alt" and "-" simultaneously.
- To restore the text size to the original scale, select **Default Size**.

Changing the font and background color

- Select a color from the **color picker** or enter the **color's HEX code** in the text box to change the font or background color.
- Check the boxes for **Underline Links** and **Color Links** to customize the appearance of links on web pages.

Note: Using a keyboard, you cannot navigate to the Reset Colors button.
